

# DashCam with Integrated Telematics

## Capture both forward facing and in-cab real-time footage

The IQ-Cam captures a complete live view visual, providing full operational insight.

## AI integration for detection of distracted driving

Whether your Drivers are texting, looking out their side windows or their eyes are off the road due to fatigue, the IQ-Cam will send a distracted alert to both you and your Driver.

## Live Real-Time Tracking

Have one solution that's multi-capable. That's what the IQ-Cam is about.

This stand-alone device makes it perfect for capturing the complete video image, breadcrumb trail tracking and fleet management of your assets.
